## Stock Asset Report

Use this page as a format for your regular asset journal reports. Make sure to remember the difference between paper profit and liquid assets. What Does Paper Profit (Paper Loss) Mean? Unrealized capital gain (or capital loss) in an investment. It is calculated by comparing the market price of a security to the original purchase price. Gains or losses only become realized when the security is sold. IF YOU BUY OR SELL AND CHANGE YOUR PORTFOLIO YOU MAY NEED TO PRINT ANOTHER ONE OF THESE SHEETS IF YOU RUN OUT OF SPACE
