For this assignment your group work will be graded by two methods. First, you will be scored by your group’s performance on the assignment as a whole. Second, you will be graded as an individual within your group. For the individual aspect I have asked you to grade your peers within the group. The chart I have given you asks you to rate each group member for the amount of work s/he has done on the assignment (the total amount should be 100%), give comments and examples of each member’s achievement, and give him/her a grade on a scale of 1-10. NOTE: Do NOT fill in the teacher section (the teacher will complete this separately). Your report will be graded by the teacher so please do a good job. Try your best to be honest and fair in this peer evaluation. No other students will see this sheet. For the grade section, please use the following:

**Basic Scoring Guidelines:**

10 = This student was undoubtedly the group leader. S/he came up with the majority of the ideas & assigned tasks, and did more than his/her share of the work.

9 = This student was one of the group leaders, paid attention, and did more than his/her share of the work.

8 = This person was a significant contributor to the group’s effort, did not goof around, and did his/her share of the work.

7 = This person may have goofed around a little, but did most of his/her share of the work and contributed to the overall product.

6 = This person was generally unproductive and didn’t contribute their fair share to the group’s effort but still gave some assistance to the rest of the group’s effort.

4 = This person did not contribute to the group’s effort at all.

2 = This person did not contribute to the group and negatively effected other people in the group with his/her behavior.

* Note: If somebody gets a 9 or 10, s/he made up the work for somebody else and should receive below an 8.
